

Architecture Scavenger Hunt

Let's go on an architecture scavenger hunt!

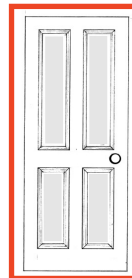

Architects do a lot of planning to create a building. They must consider all of the major parts, like plumbing and foundations, and they must also consider the small details. Go outside and look at your house and the buildings around you. What do you see? What details did the architect create?

Materials

Pencil
Notepaper

- 1 Choose one or two of the buildings near you, and look for the items on the architecture checklist below.
- 2 Use the checklist to track how many examples of each item you find.
- 3 Look over your list. You are a terrific architecture hunter!

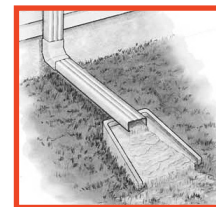

Architecture Checklist

Doors

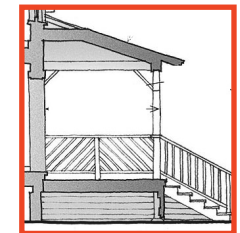

Garages

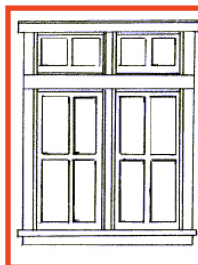

Gutter drains

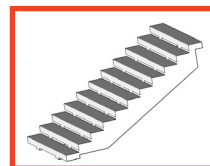

Walkways

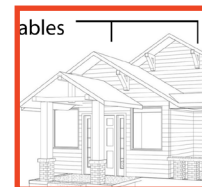

Porches

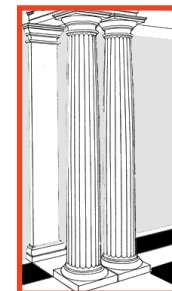

Windows

Stairways

Gables

Columns

Outdoor lights
