

Observation Day (circle one)

1 2 3 4 5 6 7

Name: _____ Date: _____

Using the weather instruments provided with this lesson, record information about today's weather in the middle column. Then, draw a picture of the weather or clouds you see under "Sketch of the day." You will perform this activity for seven days.

Weather Instrument	My measurements and observations	Sketch of the day
<p>Thermometer Measures temperature with mercury, which expands and contracts as it heats and cools.</p>	<p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p>	
<p>Rain gauge Collects and measures rainfall.</p>	<p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p>	
<p>Anemometer Measures the speed of the wind. It can also measure gases.</p>	<p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p>	

The Frist is not accessible from Eighth Avenue.
